## REMEMBERING OUR FALLEN HEROES

By Robert Lewis

It has been on my heart to find some way to take account of the contribution Muckleshoot Veterans both living and past have made to us. One of the best things about being in a tribe is that unlike the rest of America, which forgets from time to time, a tribe remembers the empty chairs at dinner tables and missing faces on our special days.

I am blessed to be a part of this community and because I get to live and work with my heroes. It is my goal to make a record of each and every veteran in the Muckleshoot tribe that has served honorably so that others can know their history, recognize the honor they are due, and realize the legacy of their service that carries us to the present day.

The first in our hall of heroes that I wish to remember is Chester "Chet" Courville. He jumped into history on that day of days, June 6 1944, as a member of Headquarters Company, 505th Parachute Infantry Regiment, 82nd Airborne. Much of his story has been lost to history, but we know that each paratrooper was given a copy of these words by General Eisenhower on the night of their fateful jump.

Chester was a part of the "Greatest Generation" – those Americans who endured the hardships of the Great Depression, only to find themselves caught up in the greatest conflict in human history. Here at home, hardship and deprivation was business as usual, even without a depression. People heated their homes with wood they felled, cut, dried and stacked themselves. There was no electricity in most reservation homes. Families lived where there was available water, and many did not have it piped hot and cold in their homes.

There was always a lot to do, but paying work was scarce. Many Muckleshoots struggled as loggers, fishermen, farmhands, and pickers just to survive season to season. In light of that harsh reality, it is not surprising that Chester and his cousin Melvin Ross (they joined together) and other tribal members enlisted in the Army as it ramped up for its assault on Imperial Japan and Nazi Germany.

## "Battle of the Horse Nations" Indian Relay Race tourney coming to Emerald Downs June 12-14

PHOTO COURTESY OF JANAE WISEMAN

By Nancy Harrison

**EMERALD DOWNS** – The 2015 Indian Relay Race season be launched in epic fashion on June 12, 13 and 14 at Emerald Downs in Auburn, WA with the first-ever Battle of the Horse Nations Indian relay race tournament.

The event will celebrate the Muckleshoot Tribe's recent acquisition of the renowned race-track, considered to be the horse racing gem of the Pacific Northwest. Fifteen of the best teams in the world will be traveling to Washington to honor the Tribe and celebrate its many achievements.

"This is a historic moment for the Indian Horse Nations," says Calvin Ghost Bear of the Oglala Lakota Nation, owner of the World Champion Lakota Warpath team.

"It is very important that our people and our children do not lose the important place the horse has in our history and our culture; we come to honor them, and our ancestors."

Champion Indian Horse Relay teams from the top Horse Nations around the country, as well as their legions of fans, will be converging on Emerald Downs for the Battle of the Horse Nations Indian Relay. Teams representing the top horse nations, Lakota, Northern Cheyenne, Crow, Blackfeet, Colville, Shoshone-Bannock and Umatilla will participate.

Indian Relay Racing is America's first extreme sport as well as the nation's oldest sport – 500 years old by many accounts. Teams dressed in traditional regalia will ride thoroughbred race horses bareback around the mile race track exchanging horses every half-mile, with warriors leaping from one galloping horse to another, creating organized mayhem. Fans will be screaming and dirt flying everywhere from the powerful and traditionally painted warhorses!

"This may be the best Indian Relay races ever run." Gary Fellers, one of the PIHRA directors, say.

"These are 15 of the top teams in the world and they have never really run as an elite group against each other before. This is historic. The

Emerald Downs fans are in for a real treat!"

Indian relay teams normally run head-to-head against all comers. For the Battle of The Horse Nations there will be a little twist: At Emerald Downs – in addition to prizes for individual teams – there will be awards for each nation, measured by the aggregate results of their own three teams. This unique feature will add an additional element of excitement of Indian Horse Relay.

The Emerald Downs event marks the official kickoff of the 2015 PoloGear™ Horse Nations Professional Indian Relay Series.

All summer long, more than 60 teams of the Professional Indian Horse Racing Association (PIHRA) will compete in 16 sanctioned races, racking up prize money and points in hopes of making it all the way to the pinnacle of the sport – the All Nations Indian Relay Championships, which will be held September 17-20, 2015 in Billings, Montana.

News of the Battle of the Horse Nations at Emerald Downs has truly gone viral on Facebook, and Natives from all parts of the West are expected to converge on Emerald Downs in huge numbers on June 12th through 14th to witness this historic event. Don't miss it! It will be epic.

**TOP STATE PARKS OFFICIALS VISIT MUCKLESHOOT.** The top brass of the Washington State Parks Department recently paid their respects to the Muckleshoot Tribe by meeting with Tribal Council members at the Philip Starr Building. Left to right: Craig Bill, Executive Director, Governor's Office of Indian Affairs; Don Hoch, State Parks Director; Councilmember Jeremy James; Daniel Farber, State Parks Governmental Affairs; Warren KingGeorge, Tribal Historian; and Peter Herzog, Assistant Director for Parks Development.

**THE END OF AN ERA.** MIT Grants Officer Steve Maurer, who will soon retire, was honored recently for his many, many years of service to the Muckleshoot Tribe. Always too humble to put himself forward, Steve was caught by surprise when the cakes and blanket box were carried into the conference room where a Tribal Council budget workshop was taking place. After wrapping him in a Muckleshoot blanket, all nine council members posed for this picture with their old friend. Left to right: Louie Ungaro, Charlotte Williams, Kerri Marquez, Virginia Cross, Mike Jerry Sr., Marie Starr, Steve Maurer, Nick Bennett, Jeremy James and Anita Mitchell.

**FALLEN HEROES** *continued from page 1*

The paucity of records from the World War II era are legendary when it comes to the experience of the average enlisted person. Barely seventy five pages were surrendered by the U.S. Army despite decades of requests by the Courville family, but we know that a big reason why PFC Chester Courville joined the paratroops was for the 50 dollars monthly bonus in "Jump Pay" that he sent home to take care of his family along with the "F" Allotment of 22 dollars from the government, matched by the soldier in service. (Adjusted for inflation, 50 dollars is 674 dollars in 2015) The Jump Pay for paratroopers offered a sizable increase in pay from the 54 dollars a month earned by a Private First Class without the bonus.

After two years of grueling training and conditioning to weed out lesser men, Chet persevered to earn his place on

one of the C-47 transport planes that carried the 82nd Airborne across the English Channel and into occupied France. It might have been the Spartan life on the reservation that prepared him for the realities of life and service in an Elite Paratroop unit, but I believe it is that warrior spirit that seems to find its home in many of our Muckleshoots today that truly carried him. I have seen it on the faces of men and women that followed, and it burns in souls born to us even in these times. It is a presence that compels us to resist and overcome regardless of the physical outcome.

The night that Chester jumped into history, the chaos that ensued and the carnage that followed are well documented in books and movies, particularly the mini-series "Band Of Brothers." The inexperienced glider and transport pilots were trained to cut lines and deploy paratroops at 70

MPH and 700 feet, but many of them panicked in the face of heavy anti-aircraft artillery fire, and released their cargo at over a thousand feet and in excess of a hundred miles an hour, scattering men and materiel in a disorganized mess that fell all over Normandy. Paratroops found themselves battered mercilessly by the high airspeed and hopelessly far from their original objectives on that night.

It is likely that Chester perished before he ever hit the ground. His dog tags were located some years later in a farm pasture. The two weeks following D-Day saw him listed in Army records as Absent Without Leave (AWOL) as opposed to Missing in Action (MIA) or killed. How much of the erroneous listing was due to prejudice against Indians or simple disdain for the common enlisted man, no one will

### Braden Tate Lamere

Born January 22, 2015 in Renton Washington, son of Gary Lamere and Tiffany Ciunci, was called to the Lord on April 7, 2015. During his brief visit on earth, he enjoyed playing with his siblings and snuggling with his parents and sleeping in the arms of his Mother. He was loved by all who met him and will be greatly missed.

Braden's memory will be honored by his siblings including his twin brother Kyson. Left with precious memories are his Parents, Grandparents, Aunts and Uncles and many Cousins.

*For brief and fleeting moment, an angel touched the ground;  
With tiny wings and halo, and sweet, soft angel sounds.*

*Blessing the lives of others, in beauty and in grace;  
Those who saw the angel, knew God had kissed his tiny face.*

*The angel came for reasons we may not understand;  
A journey brief, with gifts so great, and guided by God's hand.*

*So, rest now tiny angel, your work on earth is through;  
In the beauty of God's perfect love we saw His gift in you.*

### FALLEN HEROES continued from page 2

ever know. We only know that spirits are strong, but all men are mortal, and his life ended that terrible night.

His body was found and interred temporarily in a farmer's field near Saint Mere Eglise, a town sacred to his brothers in 82nd Airborne and now renowned in history. We honor him for laying his life down, taking on his duty and his place, so that other people could be free, but the years following his loss to us also honor him.

His legacy lived on in his only son, Gilbert "Hoagie" King George, who distinguished himself in our Second Treaty War, or the Fish Wars – the years before

the Boldt decision ended the abrogation of sovereign rights by the state of Washington. Speaking with Hoagie of how his family fought to repatriate Chester from the cemeteries established for the fallen in Normandy and laid him to rest here is once again a testament to the warrior spirit that burns in the hearts of Muckleshoots.

Hoagie King George has written a book describing in detail his experience following in his father's footsteps – a journey also published in the Muckleshoot Monthly in 2011. It is a part of our tribal history that I hold dear, that I pray is preserved for posterity.

Chester "Chet" Courville left us a legacy in his son who exhibited his bravery and served us well. He also gave us a compass point of honor that other Muckleshoots followed in Korea, Vietnam, and the various conflicts that followed to the present day.

### SEATTLE CENTER'S NORTHWEST FOLKLIFE FESTIVAL GOES NATIVE

#### Canoe Family to perform at "Welcome to Our Native Land Coastal Cultures Day Celebration"

By Kim Camara

SEATTLE – The Muckleshoot Canoe Family will be in a major new *Welcome to Our Native Land* (WONL) Coastal Cultures Day celebration event as part of this year's Northwest Folklife Festival. One of Muckleshoot's canoes will be displayed near the John T. Williams Totem Pole during the day on May 24.

The WONL Group Committee who are organizing this Coastal Celebration and one day powwow collaboratively with NW Folklife, hold up "Hands of Thanks" to the Muckleshoot Tribe for actively supporting these Native community cultural and arts events in the Center of Seattle. Special thanks are extended for receiving a Muckleshoot Charity Fund award in 2014 that led to the establishment of the First Annual WONL Powwow.

The *Welcome to Our Native Land* group has been openly welcomed by NW Folklife staff and board directors to increase a significant Native cultural and arts presence. Both want to invite and bring in numerous Pacific Northwest tribal peoples to share, interweave learning, and offer a place for engagement.

WONL Group members hold a vision to build a core Native presence at this longtime and large festival that can grow respect of artistic forms, bridge, heal and establish new relationships, deepen cultural awareness, and offer protocol-based practices for Honoring inter-tribal peoples and celebration practices in this region.

The WONL Group's aim is to establish, promote, cultivate, and strengthen connective community inter-linkages. With this festival and central location where it happens, it opens up opportunities for "Native Communities of Culture" to engage in culturally focused art forms created through a Native-led lens.

**LOCATION.** Forming in 2013, the WONL Group Committee started working with NW Folklife production people to choose the Space Needle Green grassy area near the John T. Williams Totem Pole. Everyone felt this location offers excellent public visibility near the Monorail, Space Needle, Experience Music Project Museum, 5th Avenue and Broad Street traffic areas.

Everything is free and open to everyone. A Coastal

Welcoming is scheduled to begin each day. Tipis and Coastal Canoes are on the grounds. Invited demonstration artists will show carving, painting, designing, beadwork, jewelry, cradle board making, basket weaving, regalia making, and other cultural arts practices. Local cultural leaders will be a part of and facilitate Coastal Day and Powwow songs, dances, specials, honorings, and celebration activities.

Elders have an area near the circle and people are welcome to stay for the day. Coastal Day has jamming, storytelling, dances, and songs. Before powwow grand entry, Native folk style music, hip hop, and youth dancers are scheduled. After Grand Entry, WONL Committee Specials, category, round, Watnotbe dances, and inter-tribals will invite dancers into the circle supported by invited drums. Hosts are Southern Express, Tac Town, Little Battle and Spear Fish.

Of special note is a Memorial Day Native community-led ceremony to be held on the Mural Amphitheatre Stage near the Armory. All Veterans will be honored. At the WONL Powwow Grand Entry, the Intertribal Warriors Society has been invited to carry in the flags. Veterans will be honored in the powwow circle, too. Everyone and all Veterans are invited!

**FOLKLIFE FESTIVAL.** The Northwest Folklife Festival draws over 250,000 people annually to Seattle Center. It is held for 4 days starting at 11:00 am on Friday, May 22nd and ends at 9:00 pm on Monday, May 25, 2015. The entire area of Seattle Center is used by Folklife for outside and indoor staging locations. More than 5,000 performers and hundreds of vendors offer cultural exchange, learning scenarios, engaging activities, and exposure to numerous participants.

While creating a festival place for cultural heritage and community-driven presentations, the festival grows interactive, cultural and artistic experiences for all ages, backgrounds and interests. Following a vision "By strengthening cultural communities through arts & culture, Northwest Folklife creates opportunities for all to celebrate, share, and participate in the evolving cultural traditions of the Pacific Northwest."

As Native community people work with NWFL to

establish and create artistic interchange and exchange in this festival setting, it can begin to bridge, connect, build, and sustain relationships. Beneficial outcomes stand to result, especially for Native people.

Important to WONL Committee members is developing ways to engage Native youth, families, elders, artists, cultural people, tribes, and urban-based Native organizations to become part of Seattle-centered activities in different ways. It means establishing Native cultural programming done by Native community people. Now strengthened success is showing up with enthusiastic agreement by everyone involved to implement "Welcome to Our Native Land" Coastal and Powwow Celebrations every year at the Northwest Folklife Festival! Everyone is invited to come!

## GED CLOSE-UP:

### Jordan Hagstrom

Jordan Hagstrom is a twenty three year old Muckleshoot tribal member and our most recent GED graduate! Jordan has talked about entering the field of holistic medicine in some capacity and one day opening her own practice. When Jordan started with our program, she had concerns due to the fact that she was nursing and two of the tests are fairly long. However, she figured out a system that worked for her and her family. Here are some of Jordan's thoughts about the process for her:

**What motivated you to get your GED?**

I was motivated to get my GED so I could go to college. I really wanted a career and you can't even begin to work toward that without your GED.

**What strategies helped you to earn your GED?**

Going a little at a time. I couldn't do it all at once like I thought I could.

**What is your advice for someone who wants to get their GED?**

It might sound dumb, but literally, just start. Even if you fail a practice test, just keep practicing and don't get discouraged if it takes you longer than you thought. You only fail if you quit. If you keep going, then you'll make it.

**How do you feel now that you have obtained your GED?**

Really excited and happy! I am proud of myself for not letting anxiety and perfectionism get in the way.

**What have you learned about yourself by attaining your GED?**

I knew I had anxiety and procrastination issues, but I was able to work through them. I did better than I thought I did. I learned I had more potential and ability than I originally thought.

**What are you doing now that you have your GED diploma?**

Jordan Hagstrom

I am not sure exactly what college classes to take, so I am going to start with basic college classes. I don't want to be stagnant, and this way I will be working toward a degree.

Could you be next? Come join us at the GED program at Muckleshoot Tribal College. For more information contact Laurie (253-876-3256) or Alicia (253-876-3375) or come by anytime from 9-5, Monday- Friday.

## IMPORTANT NOTICE TO MUCKLESHOOT FISHERS

### 2015 White River Spring Chinook fishery

This year's spring chinook fishery will only be conducting Ceremonial and Subsistence (C&S) fish drive and hook & line fisheries

#### There will be no C&S (individual) net fishery

This is due to a lower run-size, poor ocean conditions, poor snow pack, poor environmental conditions with expected pre-spawn mortalities. The first C&S fish drive will take place June 1st - June 3rd with potentially a second drive in later June and another one in early August. The hook & line fishery will start in early June. Please check the fishery hotline for further details for both fisheries.

#### MIT FISH COMMISSION

Any questions please contact fisheries at (253) 876-3118

## 2015 WHITE RIVER SPRING CHINOOK

- **Individual C & S fishery closed**
- **Community fish drive planned for June 1-3**

The annual White River spring chinook individual net Ceremonial and Subsistence (C&S) fishery will be kept closed due to an expected lower return of fish returning to the natural spawning area and hatchery.

When making this decision the Fish Commission (FC) takes into account several and complicated reasons to keep this fishery closed this year. Poor ocean conditions for the past couple of years that are still continuing and persistent to this day have led to low survival for salmon stocks, poor snow pack this past winter, which translate into lower flows and lower survival for the returning salmon, warmer air patterns throughout the winter which are expected to continue throughout this spring, summer and fall which translate into warmer water conditions with potential higher pre-spawn mortalities on the lower returning chinook runs that are expected back to the White river system.

The bottom line is that this was a very tough decision but necessary for the long term future of the White River spring Chinook run.

While there are not enough fish for the individual C&S net fishery this year there will be a community C&S fish drive on spring chinook. The first fish drive will take place June 1st through June 3rd with potentially two other fish drives taking place in later June and early August. A hook and line fishery will also be open sometime in early June. Please check the hotline (1-800-FISH NOW) for further details for both fisheries.

# Vashon Clam Digging Open & Oyster Permits Available

The Muckleshoot Fisheries Division pleased to announce that the Tribe's Vashon Island tidelands are OPEN for Clam Digging and Oyster Harvest Permits are now available at the Fisheries Office.

Fisheries staff routinely sample the clams and oysters at the tidelands and analysis by the Washington State Department of Health has shown that the level of the toxin that causes paralytic shellfish poisoning – also known as red tide – is within acceptable limits, allowing harvest of all bivalve species at the beach.

Check the Fisheries hotline (1-800-FISH-NOW) to get the latest update.

To harvest oysters, Tribal members – 18 years or older – must first obtain an Oyster Harvest Permit from the Fisheries Office in the Philip Starr Building. Each permit allows the subsistence harvest of 60 oysters on three separate occasions – no commercial harvest is allowed. After using the Oyster Permit for three days of harvest, the permit holder must return it to the Fisheries office for another permit to be issued – so please make sure to return all old Oyster Permits even if you didn't harvest any oysters. This allows MIT Fisheries to monitor and keep an up-to-date inventory of the oyster resource at the tidelands.

For individuals who cannot walk the 1/4-mile trail down to the Tribe's beach, special oyster requests from Tribal Elders and disabled Tribal members can be made at the Fisheries office.

The natural populations of butter clams, little-neck steamers, cockles, and horse clams at the tidelands are in good condition, see the accompanying harvest information or contact Andy Dalton (253-876-3131) about harvesting opportunities. Please remember to always check the hotline (1-800-FISH-NOW) in the morning before going clam digging.

## Things You Should Know About Clam Digging

1. Beware: You can get sick from clams harvested at Adelaide Beach, Alki Beach, Redondo, Lincoln Park, Salt Water State Park and all other beaches between Seattle and Tacoma. They are all potentially polluted and are closed by the Department of Health.
2. Tribal members can dig clams at the Tribe's property on Vashon Island. There are lots of butter clams and some steamers, horse clams and cockles at the beach. Directions are provided at the end of this list.
3. Fisheries staff will be routinely testing the clams at the Vashon beach for "red tide" to insure the clams are safe to eat. Always check on the Fish Hotline (1-800-FISH-NOW) for results to see if the Vashon tidelands are open.
4. The Vashon tidelands are rocky and digging clams is more difficult than at sandy or gravel beaches. A clam shovel works well and some folks use a garden fork, but small clam rakes do not work very well.
5. If you want to go to the property by personal boat, the Fisheries Division will provide you with a chart to locate the tidelands and a good place to anchor or beach your boat.
6. The driveway at the property has a locked gate so call the Fisheries Division: 253-876-3131 to get the combination to the locked gate and updated red tide results.
7. Check the ferry schedule that is printed here with the tide charts. There is a fee for the ferry from Fauntleroy (West Seattle) to Vashon.
8. Fisheries staff will also be organizing clam-digging trips to Vashon Island for Tribal members who would like to visit the property for a half-day outing, call Andy at the Fisheries Division, if you are interested.
9. There are various shellfish enhancement projects going on at the Tribe's tidelands. Do not harvest any of the shellfish in areas marked with RED markers.
10. Oysters can be harvested from the area marked with GREEN buoys and only with an Oyster Harvest Permit, which are available from the Fisheries office.

### Directions to get to the Tribe's Clam Beach on Vashon Island

For Navigation Apps use the address: 13060 Vashon Highway Southwest, Vashon Island, WA.

- Take I-5 north to the West Seattle Bridge and take exit # 163 westbound.
- Go west on the bridge to West Seattle – after two sets of lights you will continue with a slight left (after Trader Joe's) onto Fauntleroy Way SW.
- Follow the signs straight to the Fauntleroy/Vashon ferry.
- Make sure to take the Vashon ferry, not the Southworth ferry.
- On Vashon Island, follow the main road (Vashon Highway) up the hill (south) about 1.87miles from the ferry dock.
- The Tribe's property driveway is on the LEFT side of the road and is marked with a "Muckleshoot Indian Tribe" sign.
- The driveway is a dirt road and there is a locked gate about 100 yards down the driveway. The combination is \_\_ \_\_ \_\_ \_\_. (Get combination at Fisheries Office before leaving).
- After the gate, follow the driveway all the way down to the small parking lot next to a small shed – just past the portable toilet. The trail to the beach is marked with a sign: "Beach Trail".
- Once down on the beach, to find a good place to dig clams, walk to the right (south) for a few minutes and try digging half-way to the water.
- It is easier to dig clams with a small shovel (not a rake) and remember to protect the young clams by back filling all holes.

# Earth Day at MTS 2015

Earth Day was another event-filled success. After a few planning meetings and some hard work, our 5th grade Green Team came through and created an amazing day for MTS. It was a great experience to witness. Our students took pride in their skills and patiently taught others the importance of caring for our Earth.

Students had fun making their own pesto with a mortar and pestle, saving our berries from invasive weeds, getting our garden beds ready for seeds, planting their own basil in recycled containers, painting pet rocks to decorate the garden space, reading about recycling and Earth Day facts in our relaxing reading area and of course, the cake walk. Parents and teachers were excited to play, work and join in the festivities and learn from their children.

The fun continued as our 5th graders handed out extra prizes to our hard workers during their lunch the next day. Students were happy to receive their prizes for a job well done.

We look forward to future sunny days filled with planting and harvesting. We always welcome families and friends to join us.

Thanks to everyone for their help and support!

**Ms. Leslie LaFountain**

### Karrena Heredia-Medina's Speech at the 40th Annual Northwest Indian Youth Conference

Submitted by Dave Daley

Last month Karrena Heredia-Medina was recognized for receiving first place in a speech competition at the 40th Annual Northwest Indian Youth Conference held in Idaho. There were approximately 200 native students who attended this conference from all over the United States. She deserves to be celebrated!

Karrena is a brilliant writer and speaker who works hard and isn't afraid to share her thoughts on how she feels on important issues in her life. She is a tenacious and bold student who has a giving spirit. After speaking with her about her conference I asked if she would be willing to publish her speech in the paper and she said yes.

Hello and good afternoon. My name is Karrena Heredia-Medina, I am 17 years old and a Junior at Muckleshoot Tribal School. I am here representing the Muckleshoot Tribe. Today I will be talking to you about why and how tribal justice should reflect our customs and traditions.

I believe that in some ways tribal justice can reflect tribal customs and traditions by reintroducing the customs we know and love today. We can use them to reverse bad habits and also to help our people.

An example of where they can be included in tribal justice is when someone commits physical abuse towards loved ones, stealing, or abusing a substance. We don't want our people staying in jail and continuing the same cycle over and over again. It's like a wheel. It's not good.

What I'm thinking, if we took someone that abused their loved ones and paired them with an elder that they loved when they were little, then the elder would be able to help them to respect the loved ones they hurt and break the cycle.

When a person abuses substances, we should teach them dancing or singing at powwows to get them away from what they were. Dancing and singing at powwows could rehabilitate them to a place where they feel stronger than when they lived on drugs. For when a person steals, showing them how to make and sell things they wish they had and use that money to provide.

Our people are suffering a lot. We don't want these things to keep repeating themselves over and over again. We want to break the chain. We want to be able to live in our traditions and not repeat every single mistake. We love them, but they're just in a bad place.

## Diabetes and Adult Vaccines

Diabetes for both Type I and Type II make the body's immune system work harder to fight infections compared to people without diabetes.

Make sure you are protected and talk with healthcare provider to make sure you have all your vaccines!

Most important vaccines you should receive :

- **Influenza** vaccine each year to protect against seasonal flu
- **Tdap** vaccine to protect against whooping cough and tetanus
- **Pneumococcal polysaccharide** vaccine to protect against pneumonia and other pneumococcal diseases
- **Hepatitis B** vaccine series to protect your liver against hepatitis B

Vaccines also highly recommended:

- **Zoster** vaccine to protect against shingles if you are 60 years and older
- **HPV** vaccine to protect against human papillomavirus if you are a man or woman up to age 26
- **MMR** vaccine to protect against measles, mumps, and rubella if you were born in 1957 or after and have not gotten this vaccine or have immunity to these diseases
- **Varicella** vaccine to protect against chickenpox if you were born in 1980 or after and have not gotten two doses of this vaccine or have immunity to this disease

If you have any questions contact the HWC Medical Clinic at 253-939-6648.

Routine Eye Exam vs Diabetic Eye Exam

**Routine Eye Exam:**

A routine eye exam is for people who have no known eye disease or symptoms of disease. Your eyes will be examined for any needed correction (glasses or contacts) or any potential indicators of eye disease. If the Doctor finds anything abnormal during your vision exam, further testing of a medical nature may be needed.

**Diabetic Eye Exam:**

This is a medically necessary annual comprehensive examination for people that have been diagnosed with Diabetes. The patient must be dilated so the Doctor can check for Diabetic Retinopathy, a potentially blinding eye disease. During this exam the Doctor also checks for visual fluctuations and swelling of the eye due to unstable blood sugars.

## UV AWARENESS

### Do you know how ultraviolet rays affect your eyes?

- Increases risk for Pre-Mature Cataracts.
- Damages the Retina and the Macula.
- Can cause Ocular Cancer.

### How can I prevent UV damage?

1. Wear a hat or a visor.
2. Find shade.
3. Maintain a healthy diet and exercise.
4. Avoid smoking.
5. Routine vision examinations for early detection.
6. **WEAR SUNGLASSES!!!!!!!**  
Or, Transition Lenses.

### What should I look for in a pair of sunglasses?

- Blocks 99 to 100% both UVA and UVB radiation.
- Provides adequate wrap around the eyes.

Muckleshoot Optical carries sunglasses for all ages. Stop in today to protect your vision from the harmful rays of UV. **Muckleshoot Optical (253)939-6648**

## ADVANCED DIRECTIVES

From the desk of Terry Zimmerman Medical Social Worker

What is an Advanced Directive?

This is a way for you to tell your family, friend and Health Care Providers what kind of medical treatments you DO or DO NOT want if you become unable to speak for yourself in the event of a medical emergency.

The Advanced Directive generally includes the following:

A Living Will (also known as Health Care Directive):

This is a written or printed document that clarifies whether you wish to withhold or withdraw "life sustaining procedures" if you are in a terminal or permanent unconscious medical state.

A Durable Power of Attorney:

This documentation allows you to choose someone to make MEDICAL DECISIONS for you if you are not able to do so for yourself. You may specify what types of decisions your designated contact can make for you.

*This type of advanced decision making and documentation can be an important resource in the event of a medical emergency and it can reduce the stress that is often felt by friends and family members at these critical times.*

## NARCAN Kits are available for Heroin/Pill Overdose

**What is Narcan?**

Effective and safe way to save someone's life who is experiencing an overdose. Narcan is a drug that can reverse an opioid overdose. It blocks opioids from attaching to opioid receptors in the brain. Narcan comes in the form of a nasal spray. It can be assembled in seconds. Absorbed immediately. Narcan is available to anyone who wants it. It is free to Muckleshoot Tribal and Community members and legal to carry.

**What is an Overdose?**

An overdose happens when the body has more drugs in its system than it can handle. Opioid overdoses happen when there are so many opioids or a mixture of opioids and other depressants (downers) in the body that the brain shuts down breathing. If someone cannot breathe or is not breathing enough, then oxygen cannot get to the brain. After a very short time, the heart stops. This can lead to unconsciousness, coma, and even death.

Opioid overdoses do not happen in an instant. They often happen as a process -- someone slowly stops breathing. Many times, overdoses can happen 1 to 3 hours after the drug was first used. It is rare that someone is "found dead with a needle in his arm."

Most overdoses happen when other people are there. This means there is a chance to prevent harm or death by using rescue breathing and/or Narcan when someone overdoses.

## WHAT ARE THE SIGNS OF HEROIN USE?

### Definitive signs of heroin use include:

- Needles or syringes not used for other medical purposes
- Burned silver spoons
- Aluminum foil or gum wrappers with burn marks
- Missing shoelaces (used as a tie off for injection sites)
- Straws with burn marks
- Small plastic bags, with white powdery residue
- Water pipes or other pipe
- Hostile behaviors toward loved ones, including blaming them for withdrawal or broken commitments
- Regular comments indicating a decline in self esteem or worsening body image
- Wearing long pants or long sleeves to hide needle marks, even in very warm weather

### Behavioral noticeable with heroin addiction include:

- Lying or other deceptive behavior
- Avoiding eye contact, or distant field of vision
- Substantial increases in time spent sleeping
- Increase in slurred, garbled or incoherent speech
- Sudden worsening of performance in school or work, including expulsion or loss of jobs
- Decreasing attention to hygiene and physical appearance
- Loss of motivation and apathy toward future goals
- Withdrawal from friends and family, instead spending time with new friends with no natural tie
- Lack of interest in hobbies and favorite activities
- Repeatedly stealing or borrowing money
- Users build tolerance to heroin, leading to increases in the frequency and quantity of heroin used. With growing tolerance, more definitive physical symptoms of heroin use and addiction emerge:
- Weight loss-they may wear big clothes to hide their weight loss..
- Runny nose (not explained by other illness or medical condition)
- Needle track marks visible on arms
- Infections or abscesses at injection site
- For women, loss of menstrual cycle (amenorrhea)
- Cuts, bruises or scabs from skin picking

## What is Suboxone?

Suboxone is a partial opioid agonist (it can both activate and block opioid receptors), its opioid effects are limited compared with those produced by full opioid agonist, such as oxycodone or heroin. Suboxone also contains naloxone, an opioid antagonist (prevents drugs from binding to opioid receptors).

### Who is Prescribed Suboxone?

- Opioid Addicts (pain pills and heroin)
- Chronic Pain/Pain Management Patients

### Why is Suboxone Safe?

Suboxone at the appropriate dose may be used to:

- Reduce illicit opioid use.
- Help patients stay in treatment.
- Decreasing and/or removing cravings for opioids.
- Suppressing symptoms of opioid withdrawal.
- Is less sedating.
- Provides the patient with limited, if any euphoria
- Offers less potential for abuse.
- Provides manageable pain relief for chronic pain patients.
- Can be a good relapse prevention tool.

### Who Prescribes Suboxone?

- Dr. Jake Bergstrom, Medical Director Muckleshoot Medical Clinic
- Dr. Sandra Ritland, Lead Physician Muckleshoot Medical Clinic

### Treatment

Treatment is a big part of the physician plan with each patient. The behavioral issues and lifestyle changes that are necessary for a stable recovery program are very important and also need to be addressed. Thus, Suboxone maintenance is ideally provided along with outpatient chemical dependency treatment.

Muckleshoot Behavioral Health Programs has a very successful treatment program for those who are prescribed Suboxone. It is very structured educational/counseling programs who have seen many successes in the program.

### Goals in Treatment

- Education
- Relapse Prevention
- Build a Support System
- Help with emotional Issues
- Determine how Long a patient will continue to take suboxone

**EFFIE'S CORNER OF FAITH**

### “Thoughts of Hope”

One day as I was traveling on back roads in Oregon, I went by an old house that was abandoned and boarded up. The porch sagged a bit and the yard and trees were in dire need of care.

Thoughts rushed through my mind as I passed slowly by this old worn and torn house. It made me think of people and life.

The world looks at that old house and sees no use or hope for it. Again my thoughts went to what family life must have been lived in that old house. Most likely feelings of love, laughter, tears and sorrow, and much more.

But my thoughts began to think, what if someone saw potential in that old house and began to repair the brokenness of it. Give it a second chance to be a home for another family. Plant new grass, water the trees, fix the porch, put in new windows, etc. Bring new life, take time, effort and work.

This brings to my mind about people and how like that old house broken and unattended that some people's lives are similar.

I see people who are hurt, damaged or crippled by life and worn down. My heart tells me that where there's brokenness and loss of hope let's start again. Begin to repair the brokenness, sadness the sorrow and start a fresh with what is left with the pieces of life.

Let's bring change to life's circumstances that have affected you.

- Beauty for Ashes
- Joy for Pain
- Healing for Suffering
- Happiness for Sorrow

As I think in my heart. There are no throw a ways.

From my old and broken things in my life I decided to sow seeds of positiveness to cancel the negatives but also not denying the negatives by choosing to give it all over to the “Son of the Most High” and use the “Holy Scriptures” to water my life that brings “Hope”.

My thought, let's repair our broken run down things of life with new hope in the “Maker of All Things”. Another thought, let's have “Hope”.

*As Always,  
Effie Tull*

### EVAN AVILA JOINS MEDIA STAFF

Muckleshoot tribal member Evan Avila has joined the MIT media staff as Communications Editor I, serving as Assistant Editor of the Muckleshoot Monthly. Evan's educational qualifications prepared him well for the job. After getting his start at GRCC, he transferred to Central Washington University, graduating in 2014 with a Bachelor's Degree in Public Relations.

Evan brings a high level of skills and a positive attitude to the job, and looks forward to serving the community.

ADMINISTRATIVE SPECIALISTS DAY TREAT. In addition to the annual luncheon at the casino, free espresso and energy drinks were handed out in the lobby of the Philip Starr Building in honor of Administrative Specialists Day, courtesy of Community Services. As you can see from the photo, it was very popular!

### “Muckleshoot Money Skills for Life” class

The Muckleshoot Housing Authority is offering “Muckleshoot Money Skills for Life” class. Please call Michelle Leverenz (253-876-3386) or email Michelle.Leverenz@muckleshoot.nsn.us to sign up for the next class.

The “Muckleshoot Money Skills for Life” course consists of two half-day sessions May 20 – 21 in the Cougar Room 8:30 – 2:00. Some key points participants will cover are:

- How to budget monthly spending;
- How to improve your credit score;
- The wise approach to “big ticket items” of your financial life – cars and housing;
- Why it's important to begin planning for your future EARLY;
- Investments and 401K;
- Why the wisest way to invest turns out to be one of the easiest; and
- What the REAL benefit of making sound financial decisions is. (Hint: it's not about the money!).

If you wish to attend the two (2) half day sessions please contact Michelle.

**NEW JUICE MACHINE AND NEW FLAVORS**

The Elder's Complex has a new juice machine with new flavors. Type 2 diabetes is a growing concern around the world especially in the Native American communities.

Natives are twice as likely to have diagnosed diabetes than any other population. For this reason, offering low sugar juice options are essential to our Elder population. In an effort to counter-act the effects of high sugar levels on our elder's, we are proud to introduce no sugar added juices at the Elder's Complex.

We currently have 3 Sugar Free Juices: SF Strawberry Kiwi, SF Peach, and SF Fruit Punch. Cranberry has only 1 gram of sugar per serving, prepared to the regular at 32 grams per serving.

We have 100% Orange Juice and for the first time added Pomegranate Vita-Water. Please come try our new healthier juices!

**UTILITY BILLS**

*The Elders Program DOES NOT have any funding for utility bills. For assistance with your utility charges please contact the Resource Center.*

The Resource Center has funding specific for Senior's Utility as well as LI-HEAP (low income home energy assistance) program. An elder may apply for, assistance with electric, gas, or water bills by completing an application, providing a current utility statement and ensuring the household income is current. The income update can be provided to Income Verification (now-conveniently located at the Resource Center)

## MIT Wildlife Department to present Washington State Hunter's Education Course June 15th-19th

The Muckleshoot Wildlife Department will be teaching a Washington State Hunter's Education Course on, June 15th-19th. If you are a tribal member and are interested in hunting outside of your treaty areas this course is required to obtain a Washington hunting license. Or, if you are interested in hunting outside of Washington State most states require you to have completed a hunter's education course before issuing you a license.

A new change in the Muckleshoot Hunting Ordinance requires teens from sixteen through eighteen to have completed this course before being issued hunting tags.

The course will be held over five days and the typical class day will last three hours. The class will run from 6 PM to 9 PM, in the Cougar Room at the Philip Starr Building. At the end of the course there is a multiple choice test that you must pass before being certified. There is also a skill evaluation portion of the course where you will be evaluated on what you learned and firearms safety. Subject matter that will be taught during the hunter's education course includes but is not limited to:

- Firearm safety
- Washington State hunting rules and regulations

- Survival
- Basic First Aid
- Wildlife Conservation
- Sportsmanship
- Muckleshoot hunting rules and regulations

This course is open to anyone interested in getting involved in hunting. Children under the age of twelve are required to have a parent present with them. The hunter education course is an easy learning environment; however it may be too advanced for children under twelve. The class will be held to twenty-five students on a first come basis. The only thing students will need to bring with them to class is paper to take notes and a pen or pencil. All other supplies to include firearms will be provided to the students. If you have any questions regarding the Washington State Hunter's Education Course please stop by the Muckleshoot Wildlife Department or call 253-876-3268. Please sign up for the class by calling the listed number or stop by the Muckleshoot Wildlife Department.
