# MELA: Celebrating Fall Festivities!

By Matthew Whitaker

In the month of October, our students had the opportunity to visit Maris Farms in Buckley, WA! We learned about how pumpkins grow, got to go through a corn maze, visit different attractions, and pick our own little pumpkins!

Each situation presented a learning opportunity for our children, and a chance to do something different that may have been a completely new experience. We can't wait until next year to do it again!

In addition to our excursion to the farms, on Halloween day we had all of MELA go trick or treating! While visiting buildings throughout the tribe, we saw familiar faces, and received candy along the way. Classrooms threw parties with different kinds of activities like decorating treats, music, and holiday themed games, yet again a successful Halloween day for us all!
